The Atlantic and Gulf
FREIGHT AND PASSENGER
LINE!
STARTING from Savannah, connects at Jesup with the Macon and Brunswick Railroad, at Macon with the Macon and Western Railroad, and at Atlanta with the various Roads diverging from this city, forming an unbroken line from the seaboard to all points in Middle and Upper Georgia, Alabama, Mississippi, Louisiana, Arkansas and Tennessee.

☞ EXPRESS FREIGHT TRAINS RUN THROUGH DAILY FROM SAVANNAH. ☜
NO BREAKAGE OF BULK.

Through rates given and Bills of Lading signed from Boston, New York, Philadelphia, Baltimore and Savannah, at the very lowest published rates. If Quick Time, Low Rates, and Prompt Settlements for loss or damage occurring on the line, constitute a claim to your patronage, then instruct your correspondents to ship "Care of Atlantic and Gulf Railroad Agent, Savannah, Ga." Call on Mr. H. P. CLARK, Agent of the Macon and Western Railroad, for the latest published Tariff of Rates and Classification of Freights, to Atlanta.

The General Agent cordially invites his Atlanta friends, who may visit New York, to call at the office of the Line—they will find a desk at their service and Atlanta papers on file.

THE WORLD'S WONDER.
DR. ABBETT'S ANTI-DYSPEPTIC
—OR—
LIVER MEDICINE

A SAFE and certain cure for all kinds of Liver Complaints, and all diseases and indispositions that originate from a diseased state or inactivity of the Liver, such as

Chronic and Acute Inflammations of the Liver,
Dyspepsia, Sick Headache,
Sourness of the Stomach,
Loss of Appetite,
Lowliness of Spirits, Colic,
Costiveness, Fever, Ague,
Bilious Fever, Dropsy and Jaundice.

These Medicines are purely Vegetable, and perfectly harmless; but their efficacy is too permanently established in all the Southern and Western States to require any further recommendations. The wise will not fail to give them a fair trial—this is all that is asked.

LAGRANGE, GA., DEC. 3, 1869.

MESSRS. CRAWFORD & WALKER, West Point, Ga. Gentlemen: Having witnessed almost daily, for the last fifteen years, the great efficacy of the preparation you are now putting up, known as "Abbett's Medicine," it affords me pleasure to state that I know of no combinations or preparation equal to it in the treatment of Liver Diseases of whatever character, and would cordially recommend it to all who are suffering from derangement of the Liver, and especially the Dyspeptic.

I am, very respectfully,
T. S. BRADFIELD, Druggist.

WEST POINT, GA., OCT. 15, 1869.

MESSRS. CRAWFORD & WALKER: Gentlemen: I can honestly and confidently recommend L. Abbett's Liver or Dyspeptic Medicine, as prepared by you, to the favorable notice of the suffering public. Having used this Medicine myself in my family for twenty years, I can highly recommend it for removing pain or flatulency from the stomach, caused by indigestion. It also has a happy effect in removing constipation of the bowels. I believe it to be the best universal remedy the world has yet discovered for the above named diseases. With my best wishes to you in introducing this valuable Medicine to the public, I remain,
Yours, truly, A. K. KENDRICK.

ATLANTA, GEORGIA, MARCH 4.

☞ See Fourth Page.

City and Suburban Affairs.

DEATH OF REV. DR. W. M. CUNNINGHAM.—Intelligence was received in this city this morning, of the death, yesterday, of Rev. Dr. Cunningham, of LaGrange, of Paralonia. Rev. Dr. Wilson went down to LaGrange this morning to preach the funeral sermon. Dr. Cunningham was a learned and able divine.

He was President of the Oglethorpe College, at the time of his death. Georgia has lost a good citizen, the Church a devoted member, and the Ministry an able expounder of the Bible. "Truly a great man has fallen in Israel." We drop a tear of sympathy at his grave, but rejoice to know that he has passed from darkness into light—from the land of the dead and dying into the land of the living and blissful.

☞ Reading matter on every page.

☞ Sir Walter Scott was, in one of his walks, leaning on the arm of his faithful attendant, Tom Purdie. Tom said: "Them are fine novels of yours, Sir Walter; they are just invaluable to me." "I'm glad to hear it, Tom." "Yes, sir; for when I've been out all day hard at work, and come home very tired, and take up one o' your novels, I'm asleep directly."

☞ The resolutions adopted by the Massachusetts Workingwomen's Protective Union, disapproving woman's suffrage, allege that it would be of no practical good to their sex, either in their moral, social or political condition, and assert that they have entire confidence in the justice, impartiality and honorable intentions of their fathers, brothers and husbands.

COMMERCIAL.

ATLANTA, 3 O'CLOCK, March 4, 1870.

KING COTTON.—Commenting upon the recent decline in gold, the New York Democrat says:

If it were not for the cotton crop, there would be no coin balances in the New York banks, or in the Federal Treasury. It would all be on the other side of the Atlantic.

THE PRIZE AND ITS COST.—In a speech to his friends the other night at Washington, General Butler said:

"That grand spectacle which is the consummation of the work of the 15th Amendment has been just witnessed in the admission of a negro as a Senator of the United States. Gentlemen, *that is the crowning act of the great and noble work.*"

Which sentiment the New York World para-phrases thus:

"The half million Union dead and the three thousand million debt find their apotheosis in a negro Senator."

Berryman, wife and child, from Glasgow, Scotland; a lady, name unknown, going to Texas, and an emigrant family of ten or twelve persons, all more or less injured.

Another dispatch states that Charlie McConnico has since died.

STATE CORRESPONDENCE.

Taliaferro Superior Court, February Term, 1870—Business Therein—Strangers Present—Court Adjourned—Farmers—What They are Doing—Weather, etc., etc.

CRAWFORDVILLE, GA., March 1, 1870.

Editor Constitution: As this was the week for the Spring Term of Taliaferro Superior Court, a goodly number of the citizens of this and other counties were here on business, and others to see and be seen and hear the news.

On the morning train from Atlanta, came Mr. Solicitor General Mathews, looking the very essence of contentment, who was soon joined by his Honor Judge Andrews, who arrived on the train from Augusta, and the twain proceeded to the Court House; adjourned the Court to 9 o'clock, Tuesday morning. March 1, and then notified the lawyers that he would meet them at the said 9 o'clock, and hear and pass upon orders, etc., at the Court House agreeably to adjournment, thus graciously granting a couple of hours to this portion of Court House business from his precious time, when there is a man incarcerated in Atlanta jail for safe keeping, by the name of C. C. Reese, charged with murder, and other criminal matter to be disposed of in addition thereto. The reason whereof we know not. Necessary orders passed, his Honor then directed the Sheriff to adjourn the Court to the 4th Monday in May prox. and made his exit from the Court House, Court seemed, etc.

Planters from all portions of the county were in attendance, and seem in good spirits, talk of using large quantities of commercial manures of many different kinds, and generally express themselves as being well up with their business, and report the prospect for grain crops as unfavorable in the main. Laborers in good demand and scarce in some localities, which are but exceptional cases.

The weather is windy, but exceedingly pleasant otherwise, and favorable to outdoor business. More anon. "F."

The Meningitis in Upson County.

THOMASTON GA., March 2, 1870.

Editor Constitution: Meningetis has been cresting quite a panic here for the last week; only two deaths of whites as yet. Several others that have been considered as hopelessly ill for the past two days, are somewhat revived. The mortality among the blacks in this vicinity has been fearful for the past two or three weeks. On Monday last at noon, I called in a cabinet shop. There was at that hour, for that day, orders in for six coffins. I learned subsequently there was two more ordered in the afternoon, making eight. One of the victims was one of the loveliest and most promising young ladies in town; another of the same class is now hovering over the grave, apparently just ready to fall. The young ladies, so far, are the greatest sufferers. Is there no remedy for that terrible disease? Miss T. on last Monday morning was considered beyond the reach of human aid. Doctor Fluellen, (whom you may remember as having been General Bragg's Chief Medical Officer,) informed the mother, that in his opinion, there was but one remedy, and that was bleeding. I learn that other physicians differed with him, but his counsel prevailed, and the young lady was copiously bled. In a very short time she was better, and is to-day, reported better. If she recovers, no one here doubts, that under God she owes her life to Dr. F's lancet. That may be in other cases the only remedy. H.

☞ Some of the Radical organs lament the fate of Whittemore, and console him with the hope of a speedy re-election. If the squelch that sent him to Congress are still in full force in South Carolina, this rascally carpet-bagger will no doubt be boost back to resume his trade, and consort with his Radical fellows.

Jottings En Route.

Dear Constitution: Macon has a population of about twelve thousand, Atlanta a population of twenty-eight or thirty thousand, and yet, with this vast difference between the inhabitant in the two places, Macon is vastly ahead of Atlanta in the hotel line. This may seem strange, but it is no less true, as a half hour's stay in the Brown House, alone, will convince any one. The proprietors of this house deserve great credit for their public spirit and enterprise, and the evident desire they manifest to afford every accommodation and convenience to the traveler. And range the wide world over, from Greenland's icy mountains to the perfumed vales of "Linda Florida," and you could not find a more polite, gentlemanly and accommodating clerk than Mr. William F. Brown. This is but a just tribute to one who in every way merits it.

Of course it is matter of chagrin to the Atlanta people, that Macon should be so far in advance with her hotels, but the only way to remedy the matter is to follow Colonel Avery's advice—go to work with a vim and a determination to do, and build a hotel equal to the Galt, in Louisville, or the Maxwell, in Nashville—in short, build one equal to the wants of the city, which would well support such a one as either of the two named.

Although there is not much stir and bustle, turmoil and confusion, in Macon as there is in Atlanta, yet I suppose there is not a city in the State with mercantile houses of a more substantial character and business than of Macon. As one of the live men of Macon—indeed, of Georgia—we may place high up on the ladder Mr. W. A. Huff, the well known provision merchant. Huff is one of the most working men in the State, and it seems to agree well with him, too, for he has lost none of that singularly handsome appearance, which, together with the extreme gentlemanliness of his manner, rendered him so universally popular with the ladies in years long agone, ere yet he had abadoned the realms of "single blessedness." Macon is getting to be quite a place of rendezvous for the drummers from the North and West, and the merchants are sharp enough to take advantage of that gregarious tendency of theirs; for, by waiting until a goodly number of them have congregated there, they can set them to bidding against each other, and thereby obtain better bargains.

At last I have had a long-standing desire gratified in seeing, and making the acquaintance of that Nester of the Georgia press, Col. Clisby, of the Telegraph and Messenger. The Colonel is by no means one of your Cassius-like men in appearance—one whom Cesar would mistrust and doubt, and suspect of stratagem and cunning—but on the contrary, he seems to be a remarkably well preserved old gentleman of about ——; but I don't ask his age, and won't hazard a guess at it, for I really don't know whether he is a married man or not; I presume he is, though—but he certainly does not look as old as I had thought he was. During the war I lived in a section of country where the Telegraph was widely circulated and well do I remember how, in the dark hours of anguish and defeat, it would send words of comfort and solace to our hearts, and make us cheer up with the hope of a brighter future. Long may the Colonel live and flourish as the head of one of the most deservedly popular papers in our State.

Sitting near the senior editor, by a table loaded down with exchanges, Mr. Reese, the junior editor. Handsome, intelligent, and courteous, possessed to an eminent degree of that *suaviter in modo* so highly recommended by Chesterfield, Mr. R. impresses you at once as a thoroughly well-bred gentleman, and if, in the course of human events, the senior gentleman of the Telegraph should be the first

THE PLANTATION.—We merely take occasion to say that our good friends, Col. Howard and Col. Alston, are making The Plantation a fine thing.

FUNNY.—Dewees and Butler, who have both been convicted of selling cadetships, both voted to censure Whittemore for that very same thing. That is Radicalism to the core.

☞ We see that the negro Senator Revels has been appointed a member of the Committee of Education. This is consistent. The Radical idea seems to be to bring everything to the black standard.

☞ It will not be long before sailing vessels will be entirely superceded by screw steamers. The former holds about the same position to the latter that stages do to railroad cars.

☞ Henry Ward Beecher says the dirty little boys halloo after him this inspiring couplet, and sometimes toss a stone by way of punctuation:

Henry Ward Beecher,
He's the screecher.

☞ The Kentucky Senate has defeated the Southern Railroad bill by a vote of 22 to 13.

This is the great line from Cincinnati to Chattanooga, that would have benefitted Atlanta greatly.

☞ The Supreme Court has decided that, for purposes of litigation, the war shall be deemed to have closed August 20, 1866—nearly four years ago—and yet Mississippi has just come back, Texas is not yet in the Union, and we have only one negro Senator.—*N. Y. Herald.*

☞ In the debate on the Mississippi question, full justice was done to the important subject by the Democratic Senators. The speeches of Messrs. Garrett Davis, Thomas F. Bayard, John P. Stockton, and George Vickers were irrefutable. They could only be answered by a strict party vote.—*Philadelphia Age.*

☞ Mobile has just had a roystering *Mardi Gras* festival, and brags that she can beat anything in that line on the Continent. The Tribune blows with gratifying gusto. It says the carnival was a sockdolager—the maskers mysterious and dazzling, the illumination gorgeous, and the display unique and bizarre. We infer that the concern was simply a good old-fashioned show of the Fantastics, of which any of our country towns on New Years can give an amusing exhibition.

Butler, of Tennessee.

Butler, of Tennessee, who sold a cadetship, is in a tight fix. He got $2,000 for the thing, but used it virtuously, as he innocently says, to defeat Senter for Governor of Tennessee. He tried Whittemore's dodge, and sought to evade expulsion by resigning. But Senter gets him richly by refusing to accept his resignation. Senter has a good memory, and a fine capacity for joking.

Georgia.

The Washington correspondent of the Baltimore Gazette writes to that paper on the 1st, the following about Georgia:

Georgia will probably be again admitted into the Union, so far as the House is concerned, to-day or to-morrow. It has been ultimately agreed to admit the Senators lately chosen, to the exclusion of Miller and Hill. The Hon. Surratt Bingham contemplates rehearsing his oft-repeated speech; but he will finally vote with his fellow conspirators. The State will be subjected to the "conditions" imposed upon Virginia.

☞ The Charleston Courier says that the total population of South Carolina in 1860 was 703,708; in 1869, it was 706,022, showing in nine years an increase of 2,314, only.

The negroes have flocked to the low country. Charleston county has increased 65,089. The whites in the State have increased a little over 2,000. The upper districts have decreased, but the whites have increased.

The total number of whites is 250,314; and of blacks 410,708. Of the whites the males are 140,321, the females, 154,993. Of the blacks 180,847 are males, and 220,661 females. The blacks outnumber the whites 115,394.

Bartow County.

Bartow is one of the brag counties of beautiful Northern Georgia. The Cartersville Express gives the Treasurer's report. He collected $28,481.48.

The following editorial paragraph will show that the Bartow farmers are wise and progressive men:

We are pleased to note the fact that our farmers are sowing largely of oats, and never has as much clover been sown as is, and will be, this spring. This is the policy, and we urge upon them the necessity of planting corn enough to meet all demands next year. Cotton, in all probability, will be lower next crop, and those who make plenty of food for man and beast, will assuredly be the best off.

Butler.

Benjamin, the great Spoons, has been nominated for the Presidency. The audience was slim and mixed, with a preponderance of Africa. He was nominated by a chaste individual, named Jones, who performed the duty in the following highly appropriate words:

"I tell you, sir, we are going to make him our next President. Yes, sir, and I tell you that he is going to be elected by the niggers. We will make him President, and, I tell you, sir, that we intend to inaugurate him three years from now. We will see to it that when he arrives in this city four buck niggers, four stalwart darkies, carry him from the depot upon their shoulders and land him at the White House. That's the way we intend to inaugurate him. We won't suffer any coach and four horses to convey him to his Presidential residence."

GOLD STILL GOING DOWN.—Gold was down to 1 15¾ yesterday. With our bonds and provisions and cotton going over to Europe in exchange for dry goods, etc., gold, in fact, is getting to be a drug in the market; and all our people, of all professions and pursuits, of all sections and parties and classes, must prepare for the general reconstruction that is at hand of a lower scale of prices all round and in everything.—*Herald.*

The Patti Concert.

The audience to hear Patti last night, was a crammed throng of Atlanta's most elegant society. A more brilliant and fashionable gathering never assembled in the Gate City, and the peerless Patti captured them entire. It was a royal ovation to her entrancing music.

The entire company is composed of stars, any one of whom would be ample attraction, but the whole constitutes an assemblage of surpassing enchantment.

The opening duo, from Martha, a rare gem of instrumental music, was finely executed by Ritter and Prume. Ritter has a marvelous touch. His execution is perfect. He handled the piano as we have heard Thalberg.

Prume's violin is exquisite. His mastery recalls Vieuxtemps. The "Star of Love" displayed the unimpassioned sweetness of Mr. Henry Squires's beautiful tenor voice. The writer heard him ten years ago, and he has lost none of his power.

But these gems only whetted the desire for the marvelous melody of Patti, who turned every body's head. Her magnificent beauty and splendid presence are a fit setting to her rare vocalization. Her voice is as clear and sweet as a silver bell, and trained to the perfection of art. Her control of it is thorough. The compass, the flexibility, the reach, the sweetness, the crystal purity, and the rhythm of her voice equal anything we ever heard on the stage. We do not believe that her Carnival of Venice, or the Laughing Song, she sang in response to the maddening *encore*, could be surpassed by any artiste, dead or living. Her execution of both was a far faultless and glorious masterpiece of musical art. We well understood how this lovely Prima Donna has charmed the civilized world of musical culture. She has a sparkling play of countenance and an electric action of her radiant eyes that are delightful accessories to her wonderful melody.

Herr Joseph Hermanns has a bass voice the audience seemed to particularly appreciate.

We have not the space at this late hour to mention more in detail the execution of the familiar operatic gems faultlessly performed.

To-night is the closing concert of this remarkable company. Miss Patti will sing from Lucia and Traviata, and a Bolero written especially for her.

We bespeak a rousing house.

ANOTHER TRAGEDY—COLONEL JONES AND HIS SON KILLED—ETC.—*Monroe, Louisiana,* March 1.—A party of about twenty-five masked men surrounded the Sheriff's house at Harrisonburg, La., about one o'clock during the night of the 27th ult., and caused the Sheriff and his family to retire. They then entered the house and killed Col. Jones and his eldest son. The youngest son, who was in the house, is supposed to have succeeded in escaping by throwing himself into the Ouachita river and swimming to the eastern bank.

The masked party are supposed to be the friends of the late Gen. Liddell, who was recently murdered by Col. Jones and his two sons, on board the steamer St. Marys, at Jones' Landing, on the Ouchita river. This statement is given by a man who was in the house at the time of the murder, and has been corroborated by passengers by the steamer which arrived from Harrisonburg to-day.—*N. O. Times.*

THE NEW HAMPSHIRE ELECTION. The Radicals are evidently frightened about the Granite State, and hence are sending their ablest stumpers to take part in the canvass now approaching its close there. The election, which is for State officers, takes place on the 8th. The Republicans have nominated Gov. Stearns for re-election, and the Democrats have pitted against him General John Bedel, who was also the candidate of the party last year. Besides the regular tickets, there are labor reform and temperance candidates in the field. Last year the whole vote for Governor was 67,781, of which Stearns had 35,777 votes, and Bedel 32,004 votes, leaving the Republican majority 3,773. In the Legislature there was a Republican majority of 59 on joint ballot—the Senate standing 9 Republicans to 3 Democrats, and the House 193 Republicans to 140 Democrats.

Tennessee Wabbly.

It is extremely probable that Congressional tinkering with Tennessee will soon begin again. A Washington correspondent thus writes:

It is stated that a bill will soon be reported for the further reconstruction of Tennessee. The provisions of the bill are not definitely known, but it is believed that the State will be remanded to a territorial condition. This will break up the Constitutional Convention now in session in Nashville, but it is understood that Gov. Senter will not be disturbed in his position. It is declared, further, that all acts of the present Legislature will be invalidated, and this will reopen the Senatorial question, as the election of the Hon. Henry Cooper will then be made null and void. There has been so much said in relation to the reconstruction of Tennessee, that many will be glad to see the matter disposed of in some way.

DEATH OF REV. DR. CUNNINGHAM.—Our community was shocked yesterday, by a telegram from LaGrange, conveying intelligence of the death of this distinguished and eloquent divine. He had a large circle of intimate acquaintances in our midst who mourn over the loss of a warm friend, a great and good man. Oglethorpe College, too, has lost a President whose soul and heart and energies were wrapped up in its success, and whose connection with the college alone, gave strong assurance of its brilliant future, aside from the many other causes operating to such a result.

The particulars of his death we have not learned.

Destructive Fire in Palmetto.

PALMETTO, GA., March 4, 1870.

Editor Constitution: Amid much confusion and excitement, I write.

A very destructive fire has consumed the greater part of the business houses of our thorough going and interesting village.

The fire broke out last night, about 10 o'clock, commencing in a wooden building owned by W. J. Shockley, in which was deposited hardware, family groceries, etc., adjoining a brick house occupied by him. The flames swept in all directions, eagerly devouring everything within their reach, soon reducing to ashes the houses of Messrs. Morgan & Bohannon, whose loss was entire, having no insurance; W. P. Davis, grocer, loss partial, having carried out a portion of his goods; J. C. Smith's stock of goods almost entirely burned, partially covered with insurance. Garrett & Walthall lost a heavy stock, pretty well covered with insurance.

The fire then crossed a street and reduced to ashes, in a very short period, the buildings occupied by W. W. Floyd, family grocer, Dr. S. Tatum, Rapier Blakely, Davis & Co., grocers, H. Hutchinson, dry goods, Wm. Jackson, grocer, and an old hotel, also a shoe shop and some other small houses, consuming in all about thirteen business houses. When the fire reached the hotel, desperate efforts were made by ladies and men, white and black, to check its progress. Much courage and presence of mind were exhibited by the ladies, particularly Mrs. Cummings and Mrs. Holleman.

The fire was baffled when it reached the house of Messrs. Thornton & Holleman, who was fortunate enough to sustain but a slight loss.

About $100,000 worth of goods were emptied in the streets, but little pillaging was noticed.

The losses may be estimated at about $90,000.

It is thought the fire originated from the hands of an incendiary.

The parties who sustained losses will build brick buildings in lieu of the wooden.

Yours truly, ROSCOE.

THE GEORGIA SENATOR.

The Rights of the People Never once Considered.

Blodgett, Senator elect from Georgia, and the man under indictment for perjury, may yet be denied his portion of the spoils resulting from the recent Congressional action in relation to that State. It is held, by even the best informed lawyers of the Radical party, that the present Legislature of Georgia had no authority, under the act of Congress which regulates the election of United States Senators, to elect a Senator for the term to which Mr. Blodgett is chosen, and that next winter is the time to fill the vacancy, if one exists. This is difficulty number one in the Georgia case. But there are others of a serious character. The anti-Bullock men of the State have presented a statement to the Committee on Reconstruction showing that Bullock repeatedly recognized the Legislature which elected Hill and Miller as Senators. They insist that this and all other acts done prior to the expulsion of the negroes are valid. In addition to this, a careful examination and canvass of the votes cast for Hill and Miller, shows that when the ballots of those disqualified from exercising the elective franchise are stricken from the Senatorial return, then Hill the Radical Senator elect has one vote, that of an election, while Miller has one clear, loyal majority. This is a tight place for the Radicals, and the only path out of the difficulty seems to be a wholesale repudiation of the acts of the first Legislature. If they do this, Bullock will be booted in an open manner, but his bruises can be cured by the application of a little official patronage. As to the rights of the people of Georgia, they are never considered in the wrangle.

Bullock now Trying to buy up the Country Democratic Press.

Editor Morning News: It is a notorious fact, that twelve or eighteen months ago Bullock appointed some eight or ten newspapers, selecting, besides, two in Atlanta, and one paper in each of the large cities in the State to advertise his proclamations and other advertisements, which were numerous, long and valuable to those advertising them. He afterwards privately selected some eight or ten country papers, expending from $20,000 to $30,000 of the people's money in this way. In doing this his object, no doubt, was, and he no doubt hoped, to win over some of these papers to himself. The Atlanta *Intelligencer* he "gobbled up" quickly, but to the credit of the other daily city press, it may be said that he made but little or no impression, notwithstanding he tried to "strike" at one and then another of these papers in one city.

At the beginning of the year, however, he publicly recalled these appointments, through his organs, the *New Era* and *Intelligencer*, at Atlanta. Most persons, no doubt, thought that, perhaps, in doing this he had concluded not to continue to advertise so extensive in future. But it seems that this was not his object. His purpose, as it now appears, was to cut off those that he failed to buy right out, or win to or soften towards himself, and in a private and secret manner continue to some of the former country press, to "try his hand" upon others that he had not "worked upon" before. If you don't believe me, Mr. Editor, just look over the different exchanges coming to your office, and you will find that while several of the Democratic country papers, and none of the city daily papers, that heretofore did this advertising (not even THE ATLANTA CONSTITUTION) are not now advertising these proclamations, etc., notwithstanding these papers have the largest circulation in the State. Yet you will find that these advertisements, are continued in other of the country papers that have heretofore had these advertisements, and have "said nothing" or "dealt gently" with Bullock and his iniquity; and you will also find them in other country papers that have not heretofore had them. Query: If Bullock merely wanted to cut off some and substitute others, or merely make a change, why not publicly do so—why publicly recall all?

What effect this "late dodge" of Bullock may have in the future, time alone can tell. But, Mr. Editor, you may "bet your bottom dollar" that, do what Bullock may, you'll not find some of these beneficiaries very fierce upon him. Or, if any one of them should become "restive," or "rather indignant," and become so indiscreet as to "speak out," their honest feeling—"keep up the lick for awhile"—"you can double your bet" that they "get no more advertising from Bullock." Report hath it that you, Mr. Editor, have had a little "experimental knowledge" on this point. But,

WATCH—AND SEE.

SOUTHERN SECURITIES.—With the exception of the new Tennessees, which continued weak, the Southern State bonds were steady and dull, being in this respect quite oblivious of the changes in the gold market. The following were the closing street prices of the Southern list: Tennessee, ex coupon, 55a55½; do. new, 45½a45¾; Virginia, ex coupon, 62¾a63; do. new, 65 1-2 a66; Georgia sixes, 81a83; do, sevens, 92a92 1-2; North Carolina, ex coupon, 44a44 1-2; do, new, 25 3-4a26; do, special tax, 23 1-2a24; Missouri sixes, 93 1-2a93 3-4; do, Hannibal and St. Joseph, 93a94; Louisiana sixes, 71a72; do, levee sixes, 69 3-4a70; do, do, eights, 79a80; Alabama eights, 94a95; do, fives, 63a64; South Carolina sixes, 87a89; do, new, 79a80; do, registered stock, 77a79.—*N. Y. Herald of Tuesday.*

THE CATAHOULA EXCITEMENT.—Notwithstanding the reports which have reached us, to the effect that the excitement in the parish of Catahoula was rapidly subsiding, we learn that the Sheriff of the parish, Mr. Ballard, has applied through Gov. Warmoth for assistance from the military to preserve peace. The application has been transferred by the Governor to the Commanding General of the Department for his action.

We learn also, that Col. Jones and his sons have petitioned for a change of venue to the parish of Rapides, asserting that it will be impossible for them, in consequence of the excitement now existing in the parish of Catahoula, to obtain an impartial examination or trial.

E. M. Yerger Turned Over to the Civil Authorities.

JACKSON, MISS., Feb. 28.—E. M. Yerger, who has been in military confinement since June last, on the charge of killing Lieut. Col. Jos. G. Crane, was transferred, at 3 o'clock to-day, to the custody of the sheriff of Hinds county, by an order from the Adjutant General of the United States army.

Lieut. Wm. Atwood, Adjutant General of the Fourth Military District, immediately made an affidavit before Judge Cabaniss, presiding, charging Mr. Yerger with the murder of Col. Crane, on the 8th of June, 1869. The counsel for the defense waived an examination, and Mr. Yerger was committed without bail.

A JOKE ON THE DEMOCRATS.—A very practical tariff joke was perpetrated upon the Democrats in the House to-day by General Schenck, who offered as an abstract proposition a resolution favoring a tariff for revenue and incidental protection, which proved to be a *verbatim* copy of the tariff plank of the Democratic platform of 1868. The Democrats emphatically put their votes on record against it, while the Republicans, with few exceptions, voted in favor of it. When the roll call was nearly complete, General Schenck pointed out the foregoing fact to his Democratic friends, who were completely nonplussed thereat. But they declined to stand by their professions of 1868, and to a man voted against the doctrine they then espoused, which is substantially the liberal Republican doctrine of to-day. The tariff proposition foreshadowed in these dispatches last night as being meditated by some of the Western Republicans, was not brought forward.—*Washington Cor. N. Y. Times.*

Fact.

The degree of M. D. is now conferred upon women in France, Scotland, Russia, Switzerland, and Sweeden.

German papers say that emigration to the United States, next summer, will be larger than in any former season.

The Virginia wheat crop, so far, is very promising. Farmers have generally availed themselves of the good weather, and considerable preparation is being made for larger crops than usual.

In New Orleans, ice, just as good as the frozen blocks, is furnished in unlimited quantities, at one cent a pound. A Carre ice machine, costing $20,000, will manufacture 12 tons a day.

Charleston, says a Southern writer, comes out like a tongue from the main land to taste the salt of the sea, not satisfied with the brackish waters of Ashley and Cooper Rivers, that moisten it on either side.

The public debt statement for the 1st inst., shows a decrease of $6,500,000 in the indebtedness of the government. The amount of coin in the treasury is $102,000,000 and of currency $10,600,000.

Baltimore owes $25,000,000, and Philadelphia over $42,000,000. The aggregate is greater than the national debt at the commencement of the war.

Harper's Weekly shows that, during the past ten years, there have been fifty libel suits against newspapers, the aggregate amount of damages collected from the defendants being $3,000.

☞ A New Haven paper reports that the summary indefinite postponement of the Woman's Suffrage Convention, which it was proposed to hold in that city this week, is likely to be a bone of contention among the leaders in the movement in that neighborhood, and it adds: "Several of the more prominent advocates of the new doctrine, who had agreed to back up the affair with their money, were not consulted at all, and they did not like to be set back so summarily. However, it is expected that the ladies will have sufficient tact to smooth the matter over, and that in a few days everything will be as serene as if nothing had occurred. Mrs. Isabella Hooker, of Hartford, is understood to have ordered the postponement, and Chas. Atwater, Esq., is out $75 for the hall, he having engaged it."

IMPORTS OF DRY GOODS.—The imports of foreign dry goods at this port in the month of January, were a trifle below the corresponding figures of last year, but the month of February returns a very considerable gain, amounting to nearly two millions of dollars, a large part of this increase having come forward during the past week. As our record is kept in even weeks, we anticipate the close of the month by a day or two, but the four weeks included in the February statement correspond with the period included in the previous returns.—*New York Journal of Commerce.*

☞ Mr. Wilson, of Massachusetts, taunted the Democrats the other day, with the fact that they had but nine United States Senators to six times this number of Radicals, and Senator Casserly told him the reason was that not one of them had been sent there by means of bayonets used over an oppressed and down-trodden people.

THE LEGAL TENDER DECISION.—*New York, Feb. 16.*—It is said that the bankers, brokers and insurance companies, and business men, in all parts of the North have sent word to the Southern lawyers and business men, that they shall not take advantage of the recent decision of the Supreme Court relative to contracts and mortgages.

In their revoking their call for a State Convention on the 4th of March, the Democratic State Central Committee of Louisiana appeal to the Democracy of every parish and ward in the State to re-organize at once, and to keep the party in effective condition.

☞ HYSTERIA OR HYSTERICS.

Occupying principally females, this name has been given to a disease variable in its nature and characterized by morbid excitability of the whole nervous system.

A "Fit of Hysterics" generally gives warning of its approach by a suffocative sensation, as if a globe or ball was rising in the throat, then the "fit" comes on, which may be a paroxysm of more uncontrollable laughter or crying to a distinct epileptic convulsion, without total loss of consciousness, however, and differing from epilepsy by its entire curability.

For this disease, with hypochondria, malaise and depression of spirits, depending on derangement of stomach, bowels and biliary organs, Dr. Melvin's Anti-Bilious Pills will be found a safe and speedy cure.

The proprietors offer these Pills with the most perfect confidence, considering them more safe, uniform, mild and prompt than all others.

THE GREAT REMEDY

Which KOSKOO has attained by its own merits

AS A GREAT AND GOOD MEDICINE

And the Large Number of Testimonials

which are constantly being received from all classes, and persons who have given it a fair use, is CONCLUSIVE PROOF of its VALUE.

AS A BLOOD PURIFIER

The Most Powerful Vegetable Alterative Yet Discovered

DISEASES OF THE BLOOD

"The life of the flesh is in the blood," is a Scriptural maxim that contains a great truth. The people talk of bad blood, as the cause of disease, and like many popular sayings, the impure and bad blood is founded in truth.

The symptoms of bad blood are many and plain—bad Digestion—dyspepsia, sick headache, and constipation of the bowels; the skin and soft tissues loose their tone and elasticity, the tongue becomes pale, weak, and covered with a pasty, white coat; the whole system shows itself in repulsive and sometimes LOATHSOME and CLEMENCATIVE forms. If long continued, results in serious disease of the Brain, Liver, Lungs, or Stomach. Much, very much, suffering is caused by bad blood. It is estimated by some that nine-tenths of the human family are affected with bad blood in some form.

When the Blood is pure, you are not liable to any disease. Many impurities are thrown off from impure diseases of large glands, and every impurity from the blood, and good spirits, fair skin and vital health return to you.

Being the only KNOWN REMEDY

that EFFICIENTLY stimulates the Hepatic secretions and functions of the LIVER, WITHOUT DEBILITATING. While it acts freely upon the Liver, it gradually cleanses, purifies, and strengthens it, and restores it to a perfectly natural state.

SYMPTOMS OF LIVER COMPLAINT AND OF SOME OF THE DISEASES PRODUCED BY IT

A sallow or ruddy color of the skin, or yellow or dark-brown spots on the face and other parts of the body; dullness and drowsiness, or extreme headache; bitter or bad taste in the mouth; bad breath; in many cases a dry, hacking cough; want of steady appetite; sometimes mistaken for indigestion; raising of the food; a bloated or full feeling in the stomach and sides; aggravation of pain in the side, back, or breast, and sometimes mistaken for it; constipation of the bowels; piles; cold feet, and coldness of the extremities, etc.

KOSKOO

Is a remedy of *Wonderful Efficacy* in the cure of diseases of the Kidneys and Bladder. Inflammation, Ulceration, Stone or Gravel, Calculus, Dropsy, Retention or Incontinence of Urine, Bright's Disease, Diabetes, and all Chronic Affections. It is as near a specific for these diseases as can be found. It does its work thoroughly and surely. The Relief which it affords in the most distressing cases is almost instantaneous, and is certain and perceptible.

DISEASES OF THE KIDNEYS AND BLADDER.

Persons unacquainted with the symptoms of Kidney Complaint, and with the important functions of the Kidneys can not be too careful in the purchase of their *healing agents*.

Regular and sufficient action of the Kidneys is as important, nay, even more so, to the health of the body, than the action of the Bowels. The Kidneys purify the Blood those effete matters which, if allowed to remain, would speedily destroy life. Suppression of the urinary discharge, or inability to void it, will cause death from thirty-six to forty-eight hours.

When the Urine is voided in too small quantities, or too infrequently, it is evident that the Kidneys are not performing their proper

CAPITALISTS, LOOK OUT.—The Immel property will be sold for division, on the first Tuesday in April next. See advertisement.

SUPREME COURT—*Evening Session*—*March 4, 1870.*—Argument was resumed in No. 6, Rome Circuit.

Pending the concluding argument, the Court adjourned till 10 o'clock, A. M. to-morrow.

"KEEPING LENT."—The Local is keeping Lent, having received a handsome contribution of eggs, from one of the best business firms in the city. But as soon as they give out we will have to break it.

FLOYD COUNTY.—We learn that as compared with the cotton crop, there will be two-thirds more land put in corn and wheat this year, and ten times more clover. The new screen manufacturing company has commenced operations on an extensive scale.

A FINE DOG.—Yesterday we saw the finest dog in the United States, and one which Gen. Grant would not refuse to accept. He is said to be the only one of his species in the United States—Russian blood hound—and weighs one hundred and forty-eight pounds. He belongs to a gentleman in Augusta.

CASEY VS. YOUNG.—Justice Spencer yesterday, rendered a decision in the above case. He decided that there was no general State law rendering the defendant, Young, liable; nor did the city ordinances render him liable to damages to stray cattle or horses, and the plaintiff was not entitled to recover. We learn that the case will be appealed.

EUGENE DAVIS IN A NEW ROLE.—The late private Secretary of Gov. Bullock, has been heard of in a new role. In the "personals" of the New York Herald, of the 25th ult., appears the following:

"Pretty Blonde, with package, Fulton Ferry stage, Friday afternoon, will greatly oblige one of her admirers by addressing Eugene Davis, Herald office."

GOOD NEWS.—The Chattanooga Times says that the "Western and Atlantic Railroad has ordered 200,000 feet of lumber, for the purpose of putting a new floor in the passenger depot, and new plank on the approaches thereto. We believe that the most of the credit for this is due to Col. A. C Bryant, Assistant Master of Transportation."

We hope soon to chronicle the "good news" of a new car shed here. Will not Col. Wrenn move in the matter.

THE RINK.—In spite of the many places of amusement open to our citizens at present, the rink continues to draw crowded houses. The additional attraction of Clark's City Band, and the reduction in prices, by issuing season tickets, indicate a desire on the part of the proprietor to make the amusement enjoyable to all, and their generosity is deserving of a hearty patronage. This is rink night, and all should attend, as a splendid time is promised.

INCOMPETENT WITNESSES.—A few days since, a negro boy was arraigned before Justice Spencer on the charge of petit larceny. The principal and only witness against him was another colored lad, who, while he admitted that it was as much harm to tell a lie before he was sworn as a witness as afterwards, did not know what an oath was. Capt. John Milledge, Jr., who represented the defense, objected to the testimony of the lad on the ground of incompetency. Justice Spencer held the objection a valid one, and the case was accordingly dismissed.

THE FAIR GROUND GIVEN TO H. I. KIMBALL.—The City Council, at a late hour last night, passed the following:

Resolved, That the bid of H. I. Kimball be accepted, with the understanding, as represented by Col. J. L. Hopkins, his attorney, that he is to give ample bond and security for the payment of the $12,500 per annum rent for the Fair Ground property, for the term of six years from January 1st, 1871, rent payable July 1st, 1871, and each subsequent year, in case the city should not think proper to re-rent; and with the further understanding that one of the provisions of said bond shall be, that, in case of fire, the said Kimball shall replace the Fair Ground buildings, the city keeping them insured for the sum of $40,000 for his benfit; and with the further understanding that the City of Atlanta shall only be bound to place Marietta street, at its present width, in first class traveling order.

Owing to the length of the bid, and the lateness of the hour, we are compelled to defer its publication until the next issue.

AN INTERESTING CASE.—Policeman Costello was arraigned before Justice Spencer, yesterday, on the charge of false imprisonment. The facts were that policeman Costello was informed by citizens that a negro man was using language calculated to breed a riot, in the neighborhood o Robinson's circus and the car shed. Mr. Costello, who is an efficient policeman, arrested the negro and conveyed him to the calaboose. The negro brought a charge against policeman Costello for false imprisonment. Messrs. B. H. & A. M. Thrasher appeared for the prosecution, and Hon. W. H. Hulsey and Col S. S. Fears for the defense.

Hon. Mr. Hulsey made one of his finest forensic efforts in behalf of the defendant. Logical and concise in his argument, at times he was peculiarly eloquent. His vindication of the police was overwhelming. Col. Fears delivered an effective and cogent speech. The Messrs Thrashers made the best possible speeches that could be made on their side of the case. Both efforts were fine specimens of elocution, of ingenious pleading, and stamped them as good orators and lawyers. Their client had no cause to complain that they did not exhaust every argument to carry their point. Justice Spencer discharged policeman Costello, and rightfully, as he did nothing but his duty in the premises. When a policeman does his duty he should be sustained, and not harassed and censured.

LENT.—Lent is a fast of forty days, which immediately precedes Easter. Though the object of the fast has been disputed, it is regarded as a preparation for repentance over the sins of the past year. The number of forty days is thought to have reference to the forty days of the deluge, the forty years' wandering of the Jews, and the forty days granted to the Ninevites for repentance. At first there was great diversity in the time and manner of its observance. Its duration was fixed at length, by the Church at thirty-six days, to which four were added. The first of Lent is Ash Wednesday, from the Roman Catholic custom of sprinkling ashes on the forehead that day, a token of "Dust thou art and unto dust thou shalt return." The fourth Sunday of Lent is termed Passion Sunday. Lent is preceded, in some countries, by the dissipation of the "Carnival." The day before Ash Wednesday is called Shrove Tuesday, because the faithful used then to confess in preparation of the fast.

All who have completed their 21st year are bound to observe the fast of Lent, unless dispensed for legitimate reasons. One meal a day is allowed, except on Sundays. This meal is not to be taken until about noon. On those days on which permission is granted to eat meat, both meat and fish are not to be used at the same meal, even by way of condiment.

A collation or partial meal is allowed in the evening. The general practice of pious Christians limits its quantity to the fourth part of an ordinary meal. Bread, butter, cheese, fruit of all kinds, salads, vegetables and fish are permitted at the collation.

Custom has made it lawful to drink in the morning some warm liquid, such as tea and coffee, or thin chocolate made with water.

Necessity and custom have authorized the use of lard instead of butter, in preparing fish, vegetables, etc.

The following persons are not bound to observe the fast, viz: All under the age of twenty-one years; the sick; pregnant women, and those giving suck to infants; those who are obliged to do hard work; and all who through weakness can not fast without injury to their health.

By dispensation the use of flesh meat will be allowed at any time on Sundays, and once a day on Mondays, Tuesdays, Thursdays and Saturdays, with the exception of Holy Thursday, and the second and last Saturdays of Lent.

Persons exempted from the obligation of fasting, by age or laborious occupation, are not restricted to the use of meat at one meal only, on those days on which its use is granted by dispensation

Gen. Van Wyck is to take the stump in New Hampshire for the Republican ticket.

The Missouri Senate has adopted further constitutional amendments to be submitted to the people, providing that enfranchised persons shall have the right to hold office

JOY TO THE WORLD! WOMAN IS FREE! Among the many modern discoveries looking to the happiness and amelioration of the human race, none is entitled to higher consideration than the renowned remedy, Dr. J. Bradfield's Female Regulator. Woman's Best Friend. By it woman is emancipated from the numberless ills peculiar to her sex. Before its magic power all irregularities of the womb vanish. It cures whites. It cures suppression of the menses. It removes uterine obstructions. It cures constipation and strengthens the system. It braces the nerves and purifies the blood. It never fails, as thousands of women will testify. This valuable medicine is prepared and sold by L. H. Bradfield, Druggist, Atlanta, Ga. Price $1.50 per bottle. All respectable drug men keep it.

From the Norfolk Daily Journal, Dec. 11, 1869:

KOSKOO.—This medicine is rapidly gaining the confidence of the people, and the numerous testimonials of its virtues, given by practitioners of medicine, leaves no doubt that it is a safe and reliable remedy for impurity of the blood, liver disease, etc.

The last Medical Journal contains an article from Prof. R. S. Newton, M. D., President of the E. Medical College, city of New York, that speaks in high terms of its curative properties, and gives a special recommendation of Koskoo to the practitioners of medicine. This is, we believe, the first instance where such medicines have been officially endorsed by the Faculty of any of the medical colleges, and reflects great credit upon the skill of Dr. Lawrence, its compounder, and also puts "Koskoo" in the van of all other medicines of the present day.

THE SEASON AND ITS DANGERS.—The human body is chiefly composed of tissues and fibres as sensitive to every change in the condition of the atmosphere as the most delicate electrometer, or the quickest-

[illegible] tube.

[illegible] the nerves, the [illegible] especially liable to [illegible] changes and vicissitudes, and the body deranged by these disastrous tendency is to keep the digestive machinery, which feeds and nourishes the whole system, in good working order.

If the stomach is weak or disordered, neither the blood nor the bile can be in a healthy state, and upon the fitness of these two important fluids for the offices assigned to them by nature, and the regularity of their flow, health in a great measure depends.

When the skies heavily laden with chilling vapors, and it often is at this season of the year, the digestion should be an object of peculiar care. If it is weak and languid the whole physical structure will be enervated. If it is vigorous, the entire organization will be strong to resist the untoward and depressing influence of a damp and vitiated atmosphere.

A pure and powerful tonic is therefore especially needed as a safeguard against the diseases most common in the spring, and Hostetter's Stomach Bitters being the most wholesome and potent medicine of the class at present known, a course of it is particularly advisable at this period of the year. The stomach will thereby be toned and strengthened, the liver and bowels regulated, the nervous system braced up, and nature put in a state of active defense against the miasma which superinduces intermittent and remittent fevers, rheumatisms, nervous debility, headache, hypochondria, and other complaints which are apt to assail the untoned and unfortified organizations. The body is strengthened without exciting the brain, and consequently no unpleasant reaction follows its reviving and renovating operations.

S-T-1860-X., like the initials on the old Roman banners, has a meaning. It represents Saint Croix—ST. being the conventional equivalent of Saint, and 1-8-6-0 standing for the letters C-R-O-I. and so forming, with the concluding X. the word Croix, by placing the trade mark and the name of the island in juxtaposition, with the figures over the letters they are intended to denote, the explanation will be understood:

S. T. 1860. X.
S T CROI X.

Nothing can be more simple, or, it may be, more appropriate. St. Croix Rum is the stimulating basis of the PLANTATION BITTERS, and is, therefore, "in accordance with the fitness of things," that St. Croix should be the basis of their business shibboleth.

The new food prepared from SEA MOSS FARINA is meeting with wonderful success; and well it may, for a more delightful dessert for the table can not be imagined. mhldeodlw&wlt

COMMERCIAL.

ATLANTA, 10 o'clock, P. M., March 4.

Since giving our evening report of the market, we have no material changes to note in quotations. Gold is buying at 1 14 and selling at 1 18; but little doing. Cotton remains in "statu quo," and buyers resemble a scorched cabbage leaf.

PROVISIONS, GRAIN, ETC.

NEW ORLEANS, March 1.

SUGAR—The market has exhibited more animation to-day, though without any improvement in prices, and the sales embrace 1,600 hhds. at 7a8c for inferior, 8¼a8½c for common to good common, 9¼a10c for low fair, 10¼a10½c for fair, 10¾a11c for fully fair, 11¾c for prime. 12a12¼c for choice, 13a13½c for yellow clarified, and 14 a14½c for white.

MOLASSES—The market is dull, and the supplies are selling slowly at 60a70c per gallon, as in quality. A lot of strictly prime, not fermenting, sold at 77c per gallon.

BACON—Is dull. Shoulders hold at 13 1-4 a13 1-2; clear rib sides, 17 1-4a17 1-2; clear sides, 18 1-4a18 1-2 per lb. Ten casks of shoulders sold at 13 1-4; four do, clear rib sides, at 17 1-4; five and fifteen do, clear sides, at 18 1-4.

LARD.—Keg lard is in demand, and 50 and 125 kegs pressed sold at 18 1-2 per lb. Tierces are dull at 16a16 1-4.

CORN—Is scarce, and with a good demand, prices are very firm. Sales to-day, 5,000 bbls, of which 550 inferior at 1 05, 962 do, at 1 12 1-2, 1,000 prime white and yellow, at 1 22 1-2, 300 and 2,000 white at 1 22 per bushel.

WHISKY.—The market is very quiet today. Rectified is in good supply, and is quoted at 97 1-2a1 00 per gallon for choice, and 92 1-2a95 for very low proof. Raw commands 1 05 per gallon. 250 bbls Bourbon sold in lots on private terms. It is quoted at 1 65a5 00 per ballon, as in quality.

TOBACCO—During the past three days, there has been a good demand for the local trade and some request for shipment. The sales are confined to 11 hhds. old shipping leaf, at 13, and 3 new leaf at 11 per pound. The offering supply of new is very scant. Quotations are entirely nominal. Receipts past three days 60 hhds.; exports 10 hhds to Apalachicola. Stock on hand and on shipboard 3063 hhds.

ST. LOUIS, March 1.

The week opened with but slight increase in business; the high rates of freight—the Barge Company which was expected to maintain steady rates, and by competition reduce prices to their actual value, advancing its figures for the tow, Thursday, to 90 cts. on flour—still checking transactions in flour and grain, and discouraging advices from other points, rendering the provision market dull and languid. In flour there is a good demand for low grades, to fill orders pressing upon the market even at present rates, and as stocks are low prices are firm. For other grades the market rules slow, buyers generally holding off to await lower freight rates, or at minimum supplies. Wheat was more active from there being a larger demand at prevailing prices, but while in winter the quotations for all grades are fully maintained.

Buyers scrutinized samples closely, and all inferior lots were rejected. The inquiry for spring was fully equal to the supply, and prices were very firm. The demand for corn was even more active than on Saturday, there being buyers on Eastern and Western account in the market. Good sound grain readily commanded full prices and choice white and shipping lots of yellow and mixed in prime order were saleable at an advance of 1a2. Oats were not in active demand, but as holders were firm, prices were fairly maintained. There were but few buyers of rye present, and the market was dull and lower. Barley was dull and drooping, buyers offering lower prices than holders were willing to accept. Highwines were dull and unchanged, buyers generally discriminating against "fancy" whiskey, which is only salable at declining.

In tobacco there was nothing done yesterday, the offerings being too small to draw on bidders. In cotton there is very little doing, holders generally [illegible]

BY TELEGRAPH.

[Special Telegram to Col. J. The Constitution.]

The Georgia Bill before the House —Butler in Bullock's Interest.

WASHINGTON, March 4.—The Georgia Bill was up in the House. Butler spoke in the interest of Bullock, and considered the present State Government Provisional, and that official terms should commence with the admission of the State. He said, by singular oversight, that the Constitution of the State of Georgia, contained a provision, enabling the Legislature to hold the perpetual lease of power. To remedy this, he introduced an amendment, not by direction of the Reconstruction Committee, but with the concurrence of some of the members that wanted no election to take place until 1872; but thereafter, no Legislature should have power to perpetuate itself.

In answer to the question of Farnsworth concerning the seating of the members, Butler said he would leave the House to determine. He would be willing to seat no member till the new election question for House. He did not think the Senate would interfere.

Farnsworth said we got in a muddle with reconstruction legislation, and the sooner we finished it the better.

He declared that the State had complied with all requirements of the reconstruction laws, and opposed on strong grounds the proposed extension of the official terms.

To-morrow will be devoted exclusively to the debate on the Georgia question.

Butler will move the previous question Monday, at the expiration of the morning hour.

Bullock, Clift, Prince are on the floor of the House.

Bullock and Butler retired to the cloak room, when the latter concluded his speech. ARGUS.

ASSOCIATED PRESS DISPATCHES.

WASHINGTON, March 4.—Sumner has withdrawn his objection to the disabilities bill. It now undoubtedly goes to the President, who will sign it.

Revenue receipts to-day, $530,000.

Col. Chas. Blunt, of the engineer corps, is sentenced to a suspension of rank and pay for three months, and was reprimanded in general orders.

James N. Mason, colored, of Arkansas, is nominated for Consul General to Liberia.

The bill reported by Robertson, of the Disabilities Committee, does not relieve persons who are affected by the 14th Amendment.

In the House, after some unimportant business, the Georgia question was taken up.

It will be voted on to-morrow.

Butler, in arguing the bill, said, Georgia, for the first time, presented herself in proper guise for admission.

Butler added that if the judgment of the House went with his own, he proposed to exhibit to Tennessee the power of Congress against wrong, rapine, and murder.

Farnsworth opposed the bill. He said he understood very well the object of the bill; it was got up on the theory that the admission of the members to the Fortieth Congress went for nothing, like Rip Van Winkle's dream, and that they were to come back and be sworn in for the Forty-first Congress; it was to prolong the tenure of office of certain gentlemen in Georgia, and the bill might as well be entitled that as anything else.

In the Senate, the Committee on Disabilities reported a bill abolishing the Ironclad oath.

A resolution of the Mississippi Legislature, for the removal of the disabilities of citizens of that State, was presented.

Bill to refer all claims for Quartermaster and Commissary stores furnished to or taken by United States, by loyal persons in the South during the war, was considered. Amendments to limit the bill to a mere examination of claims, and to refer all claims over five hundred dollars to the Court of Claims, with power to diminish but not to increase the amount, were proposed. No action was taken.

Adjourned to Monday.

NEW ORLEANS, March 4.—Warmouth will convene the Legislature, extra session, commencing 7th of March.

The Columbia (S. C.) Phœnix opposes the movement to organize a third party in that State, on the ground that it would take the soul out of the anti-Radical movement there. But the movement seems to have some strong friends.

Telegraphic Markets.

B. A. FAHNESTOCK'S VERMIFUGE.

WHY is it that so many children die under the age of five years? That a large proportion of children die undefined ages has long been a subject of remark, and without a satisfactory cause ascertained, it is certain.

Also, it is known that worms exist in the human system from its earliest infancy; therefore parents, especially mothers, who are more constantly with their children, can not be too observing of the first appearance of worms; for so surely as they exist, can they be safely and certainly removed from the most Delicate Infant, by the timely use of

B. A. Fahnestock's Vermifuge.

It is perfectly harmless, containing no Mercury, being a purely Vegetable Composition, and may be administered with the utmost safety to children of all ages.

Worm Confections, made more for the purpose of pleasing the palate than of overcoming the disease, have been manufactured all over the country, and the ineffectual efforts they have exhibited, and B. A. Fahnestock's Vermifuge continues to grow in favor daily.

CAUTION.

Should countless tempters put to purchase B. A. Fahnestock's Vermifuge, be particularly careful and see that the initials are B. A. This is the article that has been so

Favorably Known Since 1829.

And purchasers must insist on having it, if they do not wish to have an Imitation forced upon them.

THE NEW JOURNALS.

THE undersigned have the pleasure of announcing to their friends and the reading public generally, that they will issue in this city, on or about the 5th proximo, a Daily and Weekly newspaper, under the title of

THE MACON DAILY JOURNAL,
AND
MACON WEEKLY JOURNAL.

In regard to the politics of the paper, it will be enough to say that it shall be the effort of our life to make such a stand for law and the rule of upright men as shall vindicate our claims to rank with the true sons of the south and defenders of the country's honor and safety. It is very true that this sounds like piping the crew to the pumps, as the good old ship seems to be in the very act of settling for her final lurch. But events are not to be discussed when present duty commands. That duty, to our mind, is resistance by every power of intellect, to the amazing corruptions of latter-day government, and by every lawful means to stay, if possible, the fearful decline of the Republic. This, in our humble judgment, can not be done by acts inaccurate and leading co-operation, because "the days are evil."

In the plan which we have marked out for the conduct of this paper, we have given especial prominence to the News Department—and we shall spare neither labor nor expense in furnishing its readers with the most varied and extended intelligence of the events of the day.

The Commercial Department will receive special attention, and be always found reliable.

Our firm being composed of practical printers—each member personally superintending a special portion of the work—is sufficient guarantee that the mechanical execution of the paper will reflect no discredit upon our professional reputation.

The DAILY JOURNAL will contain twenty-eight and THE WEEKLY thirty-six long columns of reading matter. That both editions may be placed within the reach of the masses, they will be furnished at the following extremely low rates:

Daily Journal, one year	$8 00
" " six months	4 00
" " three months	2 00
Weekly Journal, one year	2 00
" " six months	1 00

Subscriptions to the DAILY, for a less period than three months, 75 cents per month. No subscriptions to the WEEKLY for a less period than six months. Terms cash in advance. No paper will be sent unless the money accompanies the order; and the paper invariably stopped at the end of the time paid for.

Our advertising rates will be found moderate, and we solicit the patronage of the business men of Macon, pledging ourselves to merit their favor.

THE JOB OFFICE

Will be

THE ATLANTA CONSTITUTION.

THE NEW YEAR.

BY D. H. TRUE.

For The Constitution.]

"The New Year" sounds! What joyous sounds
Of welcome greet his merry rounds!
The old year sleeps, the Fifth and Peace,
From the mountains high to beauty more,
From the western shore of Columbia's land,
To California's golden strand,
A greeting comes—a loyal sound
Floats the entire world around.
All nature seems in a perfect strife,
And freshly beats the pulse of life;
But on no part of this broad land
Has nature smiled with such a hand,
Or does the New Year bring to mind
More thankful thoughts or feelings kind,
Than are poured forth here—th these skies,
Where sunshine's golden offering rise.
The verdant fields are still in sight,
There is no gloom to winter's night!
The flowers bloom and scents fill
The balmy air with fragrance still.
The rosy tints of morning glow,
Banish no fairest ice and snow,
There sunny skies are always clear,
And smiling seasons—with a cheer
Along the track of winter's reign,
And soon brings summer back again.

BY TELEGRAPH.

ASSOCIATED PRESS DISPATCHES.

WASHINGTON, March 4.—The Committees are doing nothing.

In the House the Pension and Georgia Bills comes up after the morning hour.

The Senate refused to consider the bill for extending civil rights to the Chinese.

The bill changing the judiciary circuits was resumed.

The disabilities bill still hangs under Sumner's motion to reconsider.

It is learned at the Treasury that Bechtel, Gormly and the two Hernigs will be removed from the New Orleans Custom House.

It will require stronger papers than are now before the Department to remove Casey.

NEW ORLEANS, March 4.—Auditor Wicklife has been unanimously impeached.

MONTGOMERY, March 4.—The Legislature, after passing twenty-nine bills, mostly legalizing marriages, making divorces, and loaning the State's credit to railroads, then adjourned.

WHEELING, March 4.—The Legislature has adjourned. The Seat of Government hereafter will be at Charleston.

ROME, March 4.—The Pope is confident of carrying infallibility.

MORNING SESSION.

ATLANTA, March 4, 1870.

No. 5 Rome Circuit was argued. It is the Rome Railroad Company vs. Andrew M. Sloan, from Floyd. Warren Akin, Printup & Fouche for plaintiff in error. Harvey & Scott for defendant.

No. 6 is D. S. Printup, *et. al.*, vs. Wm. A. Fort, equity from Floyd. Alexander & Wright. R. F. Fouche, Col. Dabney for plaintiffs in error. Underwood & Rowell for defendant.

Pending the reading of the record, Court adjourned till 3 o'clock. P. M.

HARD TO FIND.—The Rev. E. L——t, who resided some years at Hampton Court, near London, had an old parishoner and communicant, whom he had been visiting during a short illness. At last the medical attendant called and informed Mr. L——t that the old man was dying; whereupon he immediately went to him to administer the sacrament. After which he told the old man's wife that her husband would not live long, and if there was anything she wished to say to him, she had better do it whilst he was able to understand her.

She immediately went to his bedside, and said: "John, Mr. L——t says you're goin' to dee. I wish when you git to heaven you'd look out for my first husband and tell him I've been doin' pratty well well sin' he left me, and I often wish I might see him agin'."

The old man turned his eyes upon his wife with a deprecating expression, and raising himself a little, replied: "Lord help thee, Meary, how de'eat thee think that oud and la'am as I be I can go raunging all over heaven to find thy first husband?"

HENRY'S CARBOLIC CONSTITUTION RENOVATOR, —OR— BLOOD CLEANSER!

This medicine is known to the faculty as being the concentrated fluid extract of Sarsaparilla united with

CARBOLIC ACID

For the Cure of

SCROFULA and CONSUMPTION.

This remedy is compounded expressly for purifying and cleansing the blood of all impurities, going at once to the fountain head of disease. It distinguishes

Tumors, Consumption, Syphilis, Skin Eruptions, Salt Rheum, Boils, Rheumatism, Waste of Vitality, Scrofula.

We all know that the promiscuous vaccination indulged in during the late war, bred the most villainous diseases. Vaccination pus was taken from the arms of many full of scrofulous sores. Then of course the impurities of the Scrofulous patients were absorbed in the blood of men other wise without disease, and both became infected alike. Men, women and children throughout all the west are more or less woefully diseased from this cause, and knew not until a few months ago, the origin of it.

HENRY'S CONSTITUTION RENOVATOR

Relieves the entire System of Pains and Aches, enlivens the spirits, and sends new blood bounding through every vein. It imparts a

Sparkling Brightness to the Eye.
A Rosy Glow to the Cheek.
A Ruby Tinge to the Lips.
A Clearness to the Head.
Brightness to the Complexion.
Buoyancy to the Spirits.
And Happiness on all Sides.

For all affections of the kidneys is unsurpassed. People have been rescued, as is were, from the very jaws of death, by a timely use of this great remedy.

EXTRACTS FROM VARIOUS LETTERS.

"I was vaccinated in hospital. Before that I had no skin disease. Until I had a bottle of your Constitution Renovator sent me by Mr. Esper, of Columbia, Mo., I suffered tortures with running sores. Since I used two bottles, I am all well except a small sore on the calf of my leg, and that is getting well fast."

This is from a lady: "And now my skin is as clear and fair as a babe's. My complexion, thanks to your Renovator, is beautiful.

"Yes, yes, I may say such relief was unknown to me before. Enclosed find five dollars for six bottles; two families here want to try it."

"I was very much troubled with syphilis. Your remedy seems to be curing me fast. Send four bottles per express."

"No more rheumatism. Three bottles of Constitution Renovator have made me a new man."

"Doctor, enclosed find $5. Please send me a supply. Two families here want to try your Constitution Renovator.

We have not space for more of the above extracts, but you can ask your neighbor about the remedy. Every one has something good to say, as it cures every time. For all diseases of the

Kidneys, Retention of the Urine, etc., and for female Diseases, Nervous Prostration, Weakness, General Lassitude and Want of Appetite, it is Unsurpassed.

CAUTION.—In ordering our remedy, always place the number of our post-office box on your letters. The new law in our New York Post-office compels this. Address,

THE WILLINGHAM FERTILIZER FOR COTTON, CORN & WHEAT

THIS STANDARD MANURE, named after a well known practical Planter of South Carolina, combines in a concentrated form all the fertilizing elements for the production of COTTON, CORN & WHEAT, and by its use is certain to increase not only but to improve the quality of the products. It is made with a special view to the wants of the soils of the South, and can be relied upon as to excellence of material, containing all necessary substances, the great cost of which have heretofore precluded their use. It can be depended on as uniform, always reliable, and productive of good crops.

Having a full knowledge of the composition and process of manufacture of the Willingham Fertilizer, I have no hesitation in pronouncing it a valuable fertilizer, one of the best in use, and most particularly adapted to the soils of South Carolina.

MESSRS. ABBOTT & BRO., Atlanta, Ga.—Sirs: In reply to your enquiry, as to the merits of Merryman's Raw Bone Phosphate, I take pleasure in stating that in my opinion there is no Fertilizer in use that is superior to it. I used it on my cotton, and am well pleased with it, and will use it more extensively another year. I do not hesitate to recommend it to all who want a good reliable Fertilizer.

Yours, truly, ELLISON RUSH.

MESSRS. ABBOTT & BRO.—Gentlemen—The two tons of Raw Bone Phosphate, purchased last spring, I applied on my potatoes, with the most satisfactory results. Until this year, I have used Chesapeake Guano and Baugh's Phosphate, and I have no hesitating, after thorough tests, in saying Raw Bone Phosphate is far superior to either of the above.
